Yes. If it's anything like the Givi I have you'll find the rain cover inside, in a small plastic bag
tied to the front of the bag.

Get a roll of large polythene garment covers such as this: https://www.amazon.co.uk/Polythene-Garment-Covers-Cleaner-Bags/dp/B005YWM99Y/ref=sr_1_28?ie=UTF8&qid=1541543149&sr=8-28&keywords=garment+cover

And a small roll of Scapa waterproof tape to tape it in place. The roll has a thousand uses on

the road and the bags are so cheap you can just throw them away once the weather dries up.

Ah, for some unknown reason I just figured that a rain cover would be clear, obviously not :) .

My brother has a good mate that works for the Givi sales and marketing department: I'll be

sure to pass along the suggestion for a clear bag cover you can see through. :up:
